

# KHUSHAAH SINGH

## Software Engineer

+91 8527837429

[khushahal20@gmail.com](mailto:khushahal20@gmail.com)

---

A highly skilled Software Developer with 6 years of hands-on experience in full-stack web development, with a strong foundation in the Software Development Life Cycle (SDLC). Proficient in developing robust web applications using technologies such as **ASP.NET 4.0**, **ASP.NET Core**, **.NET Core**, **C#**, **MVC 4**, **Web API**, **SQL Server 2008/2012**, **HTML**, **CSS**, and **Angular 8**. Demonstrates strong problem-solving abilities, a collaborative mindset, and a commitment to delivering scalable, high-performance solutions.

## Technical Expertise

---

- **Microsoft .NET Technologies:** ASP.NET 4.0, ASP.NET Core, .NET Core, MVC 4, LINQ, Entity Framework, Web API
- **Programming Languages & Scripting:** C#, JavaScript, jQuery, JSON, HTML, CSS, Angular 8, Basic knowledge of VB
- **Database Technologies:** Microsoft SQL Server 2008, 2012
- **Development Tools & IDEs:** Microsoft Visual Studio 2010, 2012, with working knowledge of 2013 and 2015
- **Testing & Operating Systems:** Manual Testing, Windows OS

## Experience

---

### PASHUPATI POLYTEX PVT. LTD. (Noida)

April 2025 – Currently Working

As a **Software Developer**, I am involved in the complete development lifecycle, including designing, coding, and collaborating within a team environment. My current work focuses on building web applications using **ASP.NET MVC 4.0**, **Entity Framework**, **jQuery**, **AJAX**, and **JSON**. I contribute to both the front-end and back-end development processes. The **UI layer** is developed using **MVC**, **HTML**, **Kendo UI**, **JavaScript**, **jQuery**, and **CSS**, while the **API layer** is built using **ASP.NET MVC** and **Entity Framework**.

### SPACE CARE SOLUTIONS PRIVATE LIMITED

January 2024 – September 2024

From January 2024 to September 2024, I worked as a Software Developer at Space Care Solutions Private Limited. During this period, I was involved in the development of a project titled **LSP (Logistics Service Provider)**, where I contributed to building a **Lead Management System** using **ASP.NET Core 8.0**. My role included designing and developing core application features,

collaborating with the team to ensure smooth integration, and following best practices throughout the software development lifecycle.

## **FSL SOFTWARE TECHNOLOGIES**

March 2022 – June 2023

I am actively involved in application development, including designing and coding in collaboration with a team. My work primarily involves technologies such as **ASP.NET**, **Angular 8**, and **basic knowledge of VB** to build and maintain scalable web applications.

**Project Name:** <https://app.lexmantra.co.in> , <https://app.salesmantra.net.in>,

## **ECHIKITSA INFORMATICS PVT. LTD. (Gurgaon)**

January 2017 – March 2021

I am responsible for designing and coding web applications in collaboration with a development team. My current role involves working with **ASP.NET MVC 4.0**, **Entity Framework**, **jQuery**, **AJAX**, **JSON**, and reporting tools to build robust applications. The **UI layer** is developed using **MVC**, **HTML**, **Kendo UI**, **JavaScript**, **jQuery**, and **CSS**, while the **API layer** is built using **ASP.NET MVC** and **Entity Framework**.

## **Education**

**Evaluation Warning: The document was created with Spire.Doc for .NET.**

- Pursuing Master of Computer Application from Karnataka University (KSQU)
- B.A from D.D.U Gorakhpur University, Gorakhpur
- 12<sup>th</sup> Since from U. P. Board
- 10<sup>th</sup> Since from U.P. Board
- Diploma in .NET from NIIT Center South Ex, New Delhi (2012)

## **Project Experience**

### **Project 1: Ask4healthcare– [www.ask4healthcare.com](http://www.ask4healthcare.com) (January 2017)**

**Description:** Ask4healthcare is an online platform where medical providers like doctors, hospitals, and diagnostic centers and online query for doctor and hospital. Patient can also maintain **electronic health record (EHR)** and he also create group, maintain the report.

#### **Technical environment:**

Microsoft Visual Studio 2012(C#, ASP.NET 4.0, ASP.NET CORE, .NET CORE, ANGULAR 8.0, C#, HTML, CSS, jQuery, bootstrap, JavaScript, Json, Ajax Reports).

#### **Roles and Responsibilities:**

- There are 3 members in team. I have worked on design and coding.
- Worked as software developer.

### **Project 2: Medripple Web – [www.medripple.com](http://www.medripple.com) (January 2017)**

**Description:** MedRipple is an online platform where medical providers like doctors, hospitals, and diagnostic centers connect with each other and refer the patients between each other. The providers can refer patients to any of the other providers. And also can maintain MIS reports. They can create their group and can send messages to group as well as any providers. This application is also available in mobile app.

**Technical environment:**

Microsoft Visual Studio 2012(C#, ASP.NET 4.0, MVC 4, Web API, HTML, CSS, jQuery, JavaScript, Json, Ajax Reports).

**Roles and Responsibilities:**

- There are 3 members in team. I have worked on design part, views, controllers and API.
- Worked as software developer.
- As a developer responsible for coding.

**Project 3: MedRipple API – [www.api.medripple.com](http://www.api.medripple.com) (January 2017)**

**Description:** MedRipple API is an online API platform which is used by the MedRipple Web to access the APIs for backend operations and fetch and insert the data to database. There are two types of APIs in this project. Get API and Post API. Get API is used to retrieve data from server database and post API is used for inserting data in server database.

**Technical environment:**

Microsoft Visual Studio 2012(C#, ASP.NET CORE, .NET CORE, ASP.NET 4.0, MVC 4, ANGULAR 8.0, Web API, LINQ, MS SQL 2008).

**Roles and Responsibilities:**

- There are 3 members in team. I have worked on Linq, EF and repositories.
- Worked as software developer.
- As a developer responsible for API handling and database

**Project 4: Customer Relationship Management- <https://app.salesmantra.net.in> (March 2022- Present)**

**Description:** It shows that you'd like to summarize details related to Customer Relationship Management (CRM) for inclusion in a resume. Below, I've provided a concise summary of key points related to CRM that you can consider adding to your resume:

**1. CRM Implementation:** Proficient in implementing CRM software solutions to streamline business operations and enhance customer interactions.

**2. Data Analysis:** Skilled in utilizing CRM data analytics to derive insights, optimize customer engagement, and drive data-driven decision-making.

**3. Customer Engagement:** Proven track record of developing and maintaining strong customer relationships, resulting in increased customer satisfaction and loyalty.

**Technical environment:**

As a Programmer, which includes the Designing, coding together with a team, here, I am working on API, Angular 8.0, CSS, HTML, bootstrap to develop CRM Project.

**Roles and Responsibilities:**

- Handling the issues of front-end and apply proper validation.
- As a Programmer responsible for application coding and database.

**Evaluation Warning:** The document was created with Spire.Doc for .NET.
